SAN MARCIAL.

From the Bee.

J. A. Harlan may go to Panama and become a directing spirit in the construction of the great canal.

M. Lassier added thirty stands of bees to his apiary this week. He promises to be scarce this summer, and the price correspondingly high, owing to the alfalfa bloom failure.

J. M. Lasley and the writer visited Rosedale and found everybody strictly on their beat. The Martin mill continues to run night and day. In about three weeks Mr. Lasley may have a gang of men at work putting the machinery in place for the Godson Bell company, of which he is the manager.

GALLUP.

From the Republics.

Mrs. Emma May left here for her home in San Diego, California.

Miss Richardson, the Clarkville teacher, will spend the summer on the coast with her mother and brother.

Latin Dewey Oliver, son of Mr. and Mrs. W. J. Oliver, had the misfortune to break his arm at the elbow while playing at home. He is only five years old.

Professor Stewart Culim, of the Brooklyn, N. Y., Institute of Arts and Sciences, left for Seneca in company with Fathers Demarest and Doublin. From Seneca he will go to Zuni to investigate the find of the skull bones made there last week.

Owing to the effort of Colonel J. C. Abbott, Mannequin Tribe No. 2, Imperial Order of Red Men, has been organized with sixty-six members. The organization was completed Monday night after three nights work. The Lodge has over \$700 in the treasury.

DEMING.

From the Graphic.

William Sprague has gone to Yuma, Arizona, for a rest and to recuperate, having been in poor health for some time.

News comes from Colonel P. H. Scott that a deal has been made between the Deming Real Estate company and some Kansas City capitalists whereby a complete system of water works will be put in here to supply Deming with water for domestic purposes and fire protection.

Cattle sales are quite lively these days. Several buyers are now in town and cattle men are selling daily. We learn of one new buyer who is advancing the price over what has been offered, and now all those who have not already sold are hunting for this newcomer.

Most of our teachers expect to do special work, or attend summer schools during the vacation, in order to become better equipped for their profession. This of course is very gratifying, while we claim to be second to none, yet there is always room for improvement.

Noah Climo, one of Grant county's old residents, but now of Metcalf, Arizona, passed through here the other day on the sad mission of taking the remains of his late wife to Silver City for burial. Both Mr. and Mrs. Climo have many friends in this city who were greatly shocked to learn of that good lady's death.

SOCORRO.

From the Chieftain.

The Graphic and the Kelly mines in the Magdalena district are now employing altogether about one hundred men.

Mrs. Emily Newcomb of Huntington, Indiana, arrived in the city, and will be a guest for the summer in the home of her niece, Mrs. W. E. Mar-

Mrs. Paul J. Terry and two little daughters left for Douglas, Arizona, where Paul has recently been appointed to a desirable position in the customs service. They were accompanied by Miss Helen Terry.

The weather records at the School of Mines show that the aggregate rainfall for the period comprised in the months of May and June for the past seven years, not including 1904, has been a little less than five inches. According to precedent, then, this vicinity is not likely to be blessed with much rain for several weeks yet.

Postmaster Kittrell says that he will have a new postoffice equipment installed by the first of July. The boxes will have combination locks of the latest design, the woodwork will be of antique oak pattern, and the entire equipment will be strictly up-to-date. This is an improvement that has long been needed.

SANTA FE.

From the New Mexican.

Mrs. H. M. Force, who has been seriously ill for several weeks, is reported to be somewhat improved.

Antonia Varela de Gonzales, wife of Nicholas Gonzales of Agua Fria, died in giving birth to triplets. The children are also dead. The husband and three sons survive the deceased woman.

Gus Mulholland, who has the contract for the drilling of an artesian well on the grounds of the United States Industrial Indian school commenced work several days ago, and the drill at noon Saturday showed a depth of thirty-five feet. It is working through wash and gravel.

Earl E. Sidebottom, formerly of this city, but now an attorney at Alamogordo, will be married on June 15, to Miss Leona Krause of El Paso. The wedding will occur in the Pass city and will probably be attended by several Santa Feans, including the parents of the groom, Mr. and Mrs.

E. P. Sidebottom.

It is announced that the wedding of Miss Caryn Palet and R. M. Hardinge will take place on June 7 at the church of the Holy Faith in this city.

They will leave immediately for Syracuse, New York, where Mr. Hardinge has been appointed in charge of the weather bureau at that place.

Miss I. L. Foster, who has been doing reporter work on the New Mexican for some weeks, has resigned and left via the Santa Fe Central for Alamogordo, where she may accept a position on the Alamogordo Journal. Miss Foster is a conscientious and energetic journalist, and the New Mexican takes pleasure in recommending her favorably to her new employer.

George Chapman, who came to San Fe in the fall of 1901, from Ontario, Canada, hoping to find permanent relief from tuberculosis, died on May 12 at Mentone, California. He had spent some time in Albuquerque, Denver, El Paso and in California, but the disease had made too great strides to be checked. Mr. Chapman was a cousin of Miss M. E. Dissett of this city, and made many friends during his stay here. He made a brave struggle for life and bore his sufferings with patience and cheerfulness. He is survived by his wife and two children. Mr. Chapman was in his 49th year and his funeral took place in his home town of which he had been postmaster the past twenty years.

He Was a Kentuckian.

John Madison Breedon, who died in Santa Fe recently, has resided in that city for the past 35 years. He was born in Maysville, Kentucky, August 1844, and was descendant of the Madison family of Virginia on his father's side, and of the Marshall family on his mother's. He was a kind and gentle man. He is survived by a sister, Mrs. J. O. Sloan, of Indianapolis, Indiana, and three brothers, Colonel William Breedon, Major M. A. Breedon and H. C. Breedon.

AZTEC.

From the Index.

The postoffice inspector is checking up San Juan county postoffices this week.

Mr. and Mrs. Bennett and Mrs. Edwards of Durango were guests of Mrs. Pieper of Cedar Hill the latter part of last week.

A. M. Hubbard and C. F. Baker purchased fifty-seven head of two and three-year-old steers which they will range near Eureka, Colorado, and turn back the Eureka mining district with beef this summer.

Mrs. H. G. Hildebrand returned from Byron, Oklahoma, last Sunday, where she was called to attend the sick bed of her daughter, Mrs. W. F. P. Munsey. She reports Mrs. Munsey in a fair way to recovery, all dangerous complications having been subdued.

Uncle Pete Kneickerbocker left for Animas City, Colorado, and will, if conditions are favorable, go from there to the east and visit friends and relatives. Uncle Pete is an old resident in this vicinity, and it has been forty-two years since he has been out of sight of the mountains. He expects to be gone about six months, but we could not give him over thirty days.

FARMINGTON.

From the Times-Herald.

Dr. J. R. Wrightman of Manzano has just completed a \$10,000 stone building which will use as a hospital and sanitarium. Dr. Wrightman was formerly a citizen of Farmington, having lived here several years ago.

J. H. Schroeder, who has long been connected with mercantile interests here, having been bookkeeper for the Hyde Exploring expedition and afterwards for the San Juan Stores company, will leave for St. Louis about June 1. He will spend about six months there in visiting his home state and the great fair.

Mr. and Mrs. J. Allen Johnson expect to leave May 30 for an extended eastern visit. They will spend about two weeks at the World's Fair at St. Louis, and go from there to Niagara Falls, Washington, D. C., and Brooklyn. At the latter place they will visit relatives for some time and enjoy the sea breezes.

Mrs. Dr. Stannard of Fruitland while returning from visiting a patient was quite seriously injured by falling into an arroyo. During the darkness and storm her horse became unmanageable and she dismounted and began to lead him when suddenly she dropped into an arroyo. She got out and fell a second time, this time receiving her injuries. After some further wandering she saw a light and found shelter and help at the Mission.

Captured by the Union.

Night coal miners arrived here Wednesday from Gallup, having been enroute to go to work in the coal mines at Van Houten. The coal miners of the local union, however, induced them to join the union, which they did Thursday afternoon, after which they were provided with tents in Camp McDonald, about a half mile east of town.—Raton Reporter.

SANTA FE.

From the New Mexican.

W. B. Fletcher, a G. A. R. veteran, and a member of Carleton Post No. 1, in this city, who several weeks ago suffered a stroke of paralysis, was taken up to the St. Vincent's hospital for treatment.

The governor of Nambe and two of the principal men of the Pueblo, who are in the city on Saturday to consult with Judge A. J. Abbott, the attorney for the Indians in regard to their water rights in the Name river.

J. W. Buchanan, of Denver, who has been in the city for several days purchasing horses for the George L. Goulding company of Denver, left with a carload of the animals to be shipped to Coneys Island, New York.

Andino Chaves returned from the Bernardino Fernandez grant, where he has been for over a month attending to the lambing of the sheep owned by the Fernandez company. His visit to his home will be short and he will return to western Valencia county within a day or two to superintend the shearing of the goats which are in his charge.

THE GREATEST EPOCH OF MARRIAGE

The first is the most crucial time.

It is the first time the greatest event in your married lives is about to occur, how sweet, how wavy up in it to find yourselves.

You try to overlook, but in vain, that element of uncertainty and danger that you have been led to expect from the experience of those mothers and fathers who have struggled through this ordeal in ignorance of

Mother's Friend

what it is, and what it does.

If at this time every expectant man and wife might know of this greatest of books, devised for the express purpose of alleviating and dispelling the suffering and consequent danger of childbirth, how quickly could all doubt be dispelled.

Mother's Friend is an invaluable lifeguard for external massage, through whose parent agency countless mothers have been enabled to experience the joy of parturition for the first time without danger to themselves or their offspring.

BRADY-KELD REGULATOR CO., Atlanta, Ga.

PLANING MILL.

AND BOX FACTORY

A visit to the plants of the American Lumber company, just beyond the city limits to the northwest, revealed the fact that the plants are stupendous in character, and that the general manager, by whom they will be examined and the awards made. There was also an error in the figures. The correct amount will be given when the action of the supervising architect of the treasury is made public.

ALAMOGORDO.

From the Advertiser.

The Alamogordo Lumber company is running steadily on one shift, and up to the 17th instant had lost only eight hours working time this month. At present the company is shipping out faster than it is sawing and is filling several good orders from Mexico.

Bilhamel Shimleek, assistant professor of botany of the Iowa State University at Iowa City, arrived in Alamogordo several days ago. His visit is for the purpose of mapping out the district for the collection of botanical specimens himself. He is now up in the vicinity of Cloudcroft, and expects to be in this locality for the next two weeks. In the course of a month or so he will return accompanied by a number of the professors and their assistants from that institution who will at once proceed to make a rather complete collection of the flora of the southwest.

From the News.

The board of trustees of the Blind Asylum institution, which is to be located here, met Wednesday in this city and received plans for the building. A. J. King, president; R. H. Pierce, secretary and treasurer; Dr. C. W. Gerber of Las Cruces, Hon. C. E. Snow of Las Cruces, and J. H. Laurie of Alamogordo. Plans were received from the following persons: E. Krause of El Paso, Charles Whaley of Albuquerque and Frank H. Paradise of Denver. After consideration of the plans submitted, those of Mr. Paradise were adopted. Mr. Paradise is the gentleman who furnished the plans for the Otero county court house. Next Monday or Tuesday the board meets to draw up specifications and then the building will be pushed right along, advertising first for bids. Arrangements have been made to pipe water to the building grounds, and everything is in readiness now to go right ahead.

From the Journal.

Mrs. H. B. Tompkins and her daughter Ruth, have gone to White Oaks after a short visit here to Edith and Tompkins and family. Miss Ruth has been attending school the past year at Las Cruces.

J. C. Mason of Phoenix, Arizona, has bought the Avila block on the corner of Tenth street and New York avenue. He consideration is said to have been \$20,000. This is one of the best business locations in Alamogordo, and Mason has made no mistake in his purchase. He bought the building simply as an investment.

RATON.

From the Reporter.

Mrs. D. W. Shaffer and Mrs. Ed. Hinckley left for Toposa, where they will visit for a few weeks.

W. D. Lee, the general manager of the Santa Fe Central, is at Estancia on business connected with the road.

CATARRH

his return in about a month, he will be accompanied back by Mrs. Jackson who will be welcomed to the city.

A PARTY OF ARIZONA INDIANS.

Belonging to the Pima, Maricopa and Papago Tribes Arrive at the Louisiana Exposition.

A company of Indians containing representatives from the Pimas, Maricopas and Papagos of Arizona, arrived at the St. Louis fair grounds recently and were taken to the Indian reservation near the Administration building. In the party were three bucks each with his squaw, and fourteen children. The Indians are skilled basket weavers and pottery makers and took with them the material necessary for the construction of houses on the reservation resembling those occupied by them in their Arizona homes.

SOUTHWESTERN LEAGUE

OF BASE BALL CLUBS TO BE ORGANIZED, BUT IT WILL NOT INCLUDE ALBUQUERQUE.

The Southwestern Base Ball league is now practically an assured success. President G. O. Franzen of the local association has returned from an extended tour of the promising towns with which the new league would be formed, says the El Paso News. After presenting the proposition over with the various managers he has decided that it would be better to have only eight teams in the league, instead of twelve, as originally intended.

From all present appearances the league will be composed of El Paso, Silver City, Deming, Douglas, Clifton, Morenci and Tucson, Albuquerque, Las Vegas, Alamogordo and Santa Fe will not probably be members, owing to the long distance to the three cities. Mr. Franzen will go north in a short time to confer with the national league officials, with whom he has been corresponding for some time and complete arrangements for the recognition of the new league by the larger organizations.

The planing mill and box factory, recently erected, started up just a week ago last Wednesday and has been running steadily, without any kind of a hitch, every minute since that time. S. E. Dean is the superintendent of this department; A. L. Newton, formerly of the local railway shops, is the foreman, while C. H. Townsend has charge of the door and sash department. The factory is now turning out doors and sashes, and Mr. Townsend says, without any additional machinery, the present capacity of his department is about 400 doors in ten hours. The planing mill and box factory, together with the door and sash department, is 200 feet by 164 feet, including side platforms. There are 800 feet of platforms, and twenty-five cars can be loaded at a time. A 100-horse-power rocking valve Fitter-Stowell Co. engine propels all the machinery in this department, and everything connected therewith runs as smoothly as possible. As soon as the huge blower is put in position and in working order, the doors will be kept cleaned of all sawdust and shavings, and at considerable loss expense to the company. Doors, sash, moldings, boxes, dingles, boxes and all kinds of material made from dressed lumber are manufactured in this department. Including boys, nearly a hundred persons are employed in the planing mill and box factory.

At present, between 14,000,000 and 15,000,000 feet of lumber are piled up, in good order, throughout the 110 acres comprising the premises of the company, and as Manager Jackson stated, if business and foreign orders continue as they have the past few months, the capacity of the premises will have to be materially increased.

The company is building a huge barn, 50 by 100 feet and a story and a half high, for its horses. The floor of the barn will be cement, with a convenient driveway.

At the saw mill, which previously received attention through the columns of The Citizen, two additional boilers of 200 horse-power capacity each have recently been added. The entire horse-power capacity of the saw mill is 600, from a Fitter-Stowell Co. engine. G. A. Welsh is the superintendent and foreman of the saw mill, and his two helpers are C. E. Lindow and M. A. McDonald, both thoroughly competent and with Manager Jackson at Duluth, Minn., for many years. It is a pretty sight, where these two men are at work, to stand and watch the huge logs travel up through the log slip from the pond, tossed over to the log dock and thence on to the moving cars, whence they are sawed into any measurements desired. The cutting capacity of the saw mill is about 160,000 feet in ten hours, and all these planks, as they move from place to place on endless chains, are graded and measured. On reaching the ground platform they are loaded onto wagons and thence placed in piles throughout the yards, where the general rays of the sun seasons them for the planing mill and box factory.

Manager Jackson
